Parakeelya Architecture +
Construction Management

Environmental Policy

Parakeelya Architecture and Construction Management (PACM) are committed to minimising our environmental footprint, and environmental impact of our company activities as much as possible and in accordance with all relevant State and Federal Environmental Legislation and, ISO 14001 Environmental Management Systems.

PACM are committed to achieving this policy through:

- Ensuring the environment is considered in the planning and implementation of business activities;
- Understanding and managing our environmental risks with the goal of minimising or eliminating those risks;
- Providing value for money to our customers by using materials and processes that reduce environmental impact and whole- of life cost of the projects we deliver;
- Identifying risks to the environment specific to each project and implementing methods for the reduction of environmental impacts such as, but not limited to, pollution, waste, flora and fauna, heritage areas, and soil and water contamination;
- Establishing measurable environmental objectives and targets, aimed at the prevention of environmental damage;
- Provision of instruction, training and guidance to all personnel in our Integrated Management System (IMS);
- Ensuring effective reporting, investigation, and resolutions for non-conformances; and
- Regularly reviewing, monitoring, and assessing to continually improve our Integrated Management System (IMS) to enhance environmental performance.

This policy is communicated throughout our organisation and is available to the public.

Environmental Management is an integral part of our business and we expect all personnel to always adhere to and, remain committed, to this policy when working on our behalf.

This policy will be reviewed annually.
